# Careers with Weldricks Pharmacy

---

---

# A message from our Managing Director

---

Weldricks Pharmacy was founded by my father and continues to remain family-owned, focussed on delivering quality healthcare services in the heart of our local communities and online for customers who live across the UK.

Pharmacy must continually change and evolve to meet the needs of our patients and the NHS, however, I find the profession extremely rewarding and I am sure you will too. We are continually looking at ways to innovate, improve our working environment and systems for our colleagues and the service we deliver to our patients.

We are a well-respected, forward-thinking, local business with customer service at the heart of everything we do. To achieve our goals, we require a dedicated and skilled team working across a variety of roles including those within our pharmacies, our support centre and our central distribution hub. If you are interested in working within a team dedicated to delivering a customer-focused, high-quality service, we would love to hear from you to discuss the opportunities we have.

**Christopher Alcock**  
**Managing Director**

Our ongoing commitment to staff development ensures the Weldricks team are able to provide exceptional healthcare advice and service, both to our local and online communities

# About Weldricks

---

HI Weldrick Ltd (trading as Weldricks Pharmacy) have a pharmacy tradition dating back to the 1930s when our late founder's grandmother opened her first pharmacy in Doncaster town centre. Remaining true to his vision, our business remains 100% family owned.

With a commitment to community healthcare, we have steadily grown to 59 pharmacies, still concentrated predominantly in South Yorkshire, with over 700 trained staff including over 80 Pharmacists.

We have had an internet presence since 1998 and now list over 4,000 health and beauty products and prescription medicines. With a rating of 4.9 out of 5 from over 67,000 reviews, Weldricks Pharmacy is ranked number one in the Trustpilot category's 'Pharmacy' and 'Home Care Service' amongst others.

**Weldricks are rated  
4.9 out of 5, based  
on 67,102 Trustpilot  
reviews\***

# Be well local

---

Twenty-two of our Pharmacies are co-located within the local GP Practice, whilst the others are in the heart of the communities they serve. We aim to support our communities to 'be well local' through prescription dispensing and advice on self-care treatment, together with a range of healthcare services such as blood pressure screening, ear health and wax micro suction services, flu vaccines and providing advice and support through the New Medicine Service.

The Weldricks Pharmacy prescription re-ordering App enables our customers to order their prescription, track its progress and be informed when it is ready for collection. Prescription re-order reminders, direct messaging with the Pharmacist and ordering on behalf of a dependant, are all important features of our App, enabling our customers to take control and 'be well local'.

**Ordering couldn't be any easier for our customers with the development of our re-ordering App**

---

# What's it like working for Weldricks Pharmacy?

---

We all know that community pharmacy can be a busy environment that brings great rewards when patients get the best advice regarding their medication.

To support this, we ensure that all our employees are appropriately trained, and their performance monitored to ensure they can fully support the Pharmacist. This is done using the online Mediapharm training platform, accessed in branch, but also available at home to those keen to learn and progress. Our training is co-ordinated by a small in-house team and delivers apprenticeship training in partnership with Selby College.

So, you can rest assured that your employment at Weldricks will not only help improve your career from a day-to-day, hands-on perspective, but also with your personal development, should you wish to look at enhancing your career further.

**We have steadily grown to 59 pharmacies with over 700 trained staff, including over 80 Pharmacists, nine of who are Clinical Pharmacists.**
